

A workshop sponsored by:

**Maryland Population Research Center**  
in the College of Behavioral and Social Sciences  
University of Maryland

## CALL FOR APPLICATIONS

### 2009 ATUS-X WORKSHOP

**DEADLINE FOR APPLICATIONS: February 27, 2009**

*June 22-24, 2009*

*University of Maryland*

## Workshop Plans

Applications are solicited for participation in a three-day workshop to introduce researchers to the American Time Use Survey (ATUS) and the ATUS Data Extract Builder (ATUS-X). The ATUS is a general-purpose time use survey sponsored by the U.S. Bureau of Labor Statistics (BLS). The survey has been conducted annually since 2003. The ATUS-X, developed by the Maryland Population Research Center and the Minnesota Population Center with principal funding from the National Institute of Child Health and Human Development, is a new tool designed to make it easy for researchers to create time use variables and extract customized ATUS data files that are ready for analysis. Additional information about the survey and the data extract builder may be found at : [www.atusdata.org](http://www.atusdata.org).

The ATUS-X Workshop will be held on the University of Maryland campus June 22-24, 2009. The workshop is designed primarily for researchers who are new to the analysis of time use data. The three days will include presentations from BLS staff members, the research team that developed the ATUS-X, and other experienced time use researchers; lab sessions that will provide hands-on experience with using the ATUS-X; and small-group sessions at which participants will have the chance to discuss their own time use research ideas with others who have similar interests. Workshop participants also will have the opportunity to attend the American Time Use Research Conference that will take place immediately following the workshop, on June 25-26, 2009.

## Applications

Applicants are asked to submit information about their professional backgrounds; a short statement regarding their time use research interest areas; and a letter of support from an advisor or senior colleague. The ATUS-X workshop application form can be found at :

[www.atusdata.org/2009WkshopApp.pdf](http://www.atusdata.org/2009WkshopApp.pdf).

Applications should be submitted by February 27, 2009; applicants will be notified whether they have been selected to participate by no later than March 20, 2009. Domestic air fares, local transportation costs and hotel accommodations both for the ATUS-X workshop on June 22-24 and for the research conference on June 25-26, will be covered for all workshop participants.

Additional information about the American Time Use Research Conference to be held June 25-26, immediately following the ATUS-X Workshop, can be found at : [www.atususers.umd.edu/wip2/](http://www.atususers.umd.edu/wip2/)
